  - ES6+, Typescript, React, GraphQL
  - Solr, Hazelcast, Tomcat, Jetty
  - Velocity template engines
  - Jenkins CI
  - Teamplayer in agile environment (Scrum/Kanban)

Business Keeper AG, headquartered in Berlin, is Europe's first and leading provider of an electronic whistleblowing system for preventing and combating white-collar crime. With its Business Keeper Monitoring System (BKMS® System), the company has been making an important contribution towards an economic culture based on values and integrity, for over 15 years. In addition to companies, public authorities and organizations of various sizes, Business Keeper AG also counts governmental anti-corruption institutions worldwide among its clients. The BKMS® System is currently used in 197 countries and regions, and about 60 languages.
