and **WHO** you work for?

JOIN US.

Linux System Administrator (m/f/d)

Business Keeper AG is the IT-company with a social claim. Our tools are helping to fight corporate crime such as corruption and money laundering. We stand for ethical and sustainable management. At present we are extending our applications.

Join an innovative, sustainably growing company located in the heart of Berlin. We are offering an independent working environment, diverse projects, fast decision-making processes, interesting benefits, flexible working hours and sabbaticals.

Support our international team, where the continuous development of the IT infrastructure and its security are of consistently high importance.

Responsibilities

- Administration of Linux systems
- Design, configuration and extension of our network
- Ensure the operation of the active network components (Server systems, firewalls)
- Further development of processes, automation and regular maintenance work
- Obtaining and installation of hard- and software

Requirements

- Completed training as IT specialist for system integration or university degree in IT
- Work experience in Linux system and network administration is considered a plus
- Good conceptual and analytic skills
- Good language skills in German and English

Business Keeper AG, headquartered in Berlin, is Europe's first and leading provider of an electronic whistleblowing system for preventing and combating white-collar crime. With its Business Keeper Monitoring System (BKMS® System), the company has been making an important contribution towards an economic culture based on values and integrity, for over 15 years. In addition to companies, public authorities and organizations of various sizes, Business Keeper AG also counts governmental anti-corruption institutions worldwide among its clients. The BKMS® System is currently used in 197 countries and regions, and about 60 languages.
