## Software Tester (m/f/d)

Business Keeper AG is the IT-company with a social claim. Our tools are helping to fight corporate crime such as corruption and money laundering. We stand for ethical and sustainable management. At present we are extending our applications.

Become part of an innovative, sustainably growing company located in the heart of Berlin. We are offering an independent working environment, diverse projects, fast decision-making processes, flexible working hours and interesting benefits.

Support our international team, where code quality, code reviews and test coverage are of consistently high importance.

### Responsibilities

- Creating test specifications
- Planning, implementation and controlling of software tests
- Documentation and reporting of test results
- Support of IT development concerning quality and performance issues
- Close cooperation with QA-team, developers and account managers

### Requirements

- Degree in IT or related technical training
- Work experience in software testing is considered a plus
- Affinity for web applications
- Structured working style and high quality awareness
- Nice-to-have:
  - ISTQB-Certificate
  - SQL basic knowledge
  - Experience with Linux
  - Knowledge of software development processes

Business Keeper AG, headquartered in Berlin, is Europe's first and leading provider of an electronic whistleblowing system for preventing and combating white-collar crime. With its Business Keeper Monitoring System (BKMS® System), the company has been making an important contribution towards an economic culture based on values and integrity, for over 15 years. In addition to companies, public authorities and organizations of various sizes, Business Keeper AG also counts governmental anti-corruption institutions worldwide among its clients. The BKMS® System is currently used in 197 countries and regions, and about 60 languages.
