

CONTINUOUS SYSTEM SECURITY

BKMS® Compliance System

HiSolutions AG hereby confirms the successful completion of a penetration test of the Business Keeper AG's web application "BKMS® Compliance System" in May and August 2018. Among others, the objectives of the security audit were to identify vulnerabilities and to check for unauthorized access possibilities. The analysis performed was based on the OWASP top 10 risks. The audit did not reveal any serious vulnerabilities and identified findings have been fixed as of today.

Since 2015 and until 2018, security audits on the "BKMS® Compliance System" and the IT infrastructure of the Business Keeper AG will be performed at regular intervals and the implementation of recommended measures will be monitored. Furthermore, employees are trained in topics critical to IT security.

HISOLUTIONS

Penetrationtest
BKMS® Compliance System

HiSolutions AG is a security service provider for penetration tests accredited by the German Federal Office for Information Security (BSI) and a leading German consulting company for Corporate Security, Business Continuity, Information Security and System Security.
